**Context**

## Referral products

### **Driver invites someone to drive**

Empower all Drivers to earn more by helping others start earning.

### **Rider invites someone to drive**

Given the earning opportunity by inviting others to drive with uber.

# Uber

**40% of Driver First Trips** are from referrals, globally

Drivers referrals bring in **highest LTV** drivers. 16% ↑  
\$339 vs \$298 for non-Referral - Global

# Drivers

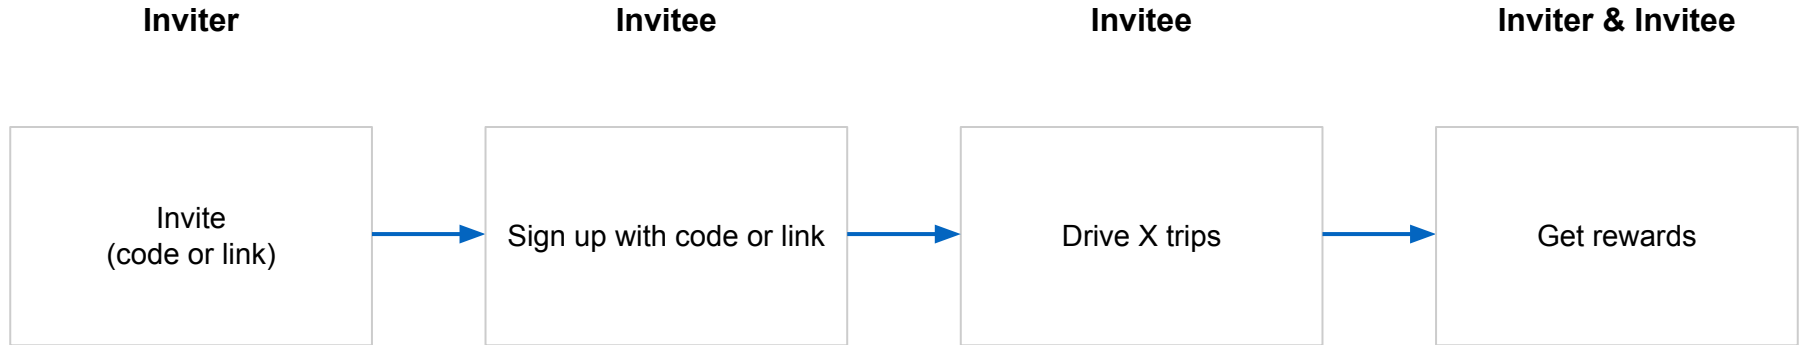

**The only non-trip activity** to make money with Uber

**More than 50%** of active driver base has referred someone and they drive 80% of referrals.

**Design referral hub in the  
new driver app.**

## How does invite work?

High level flow

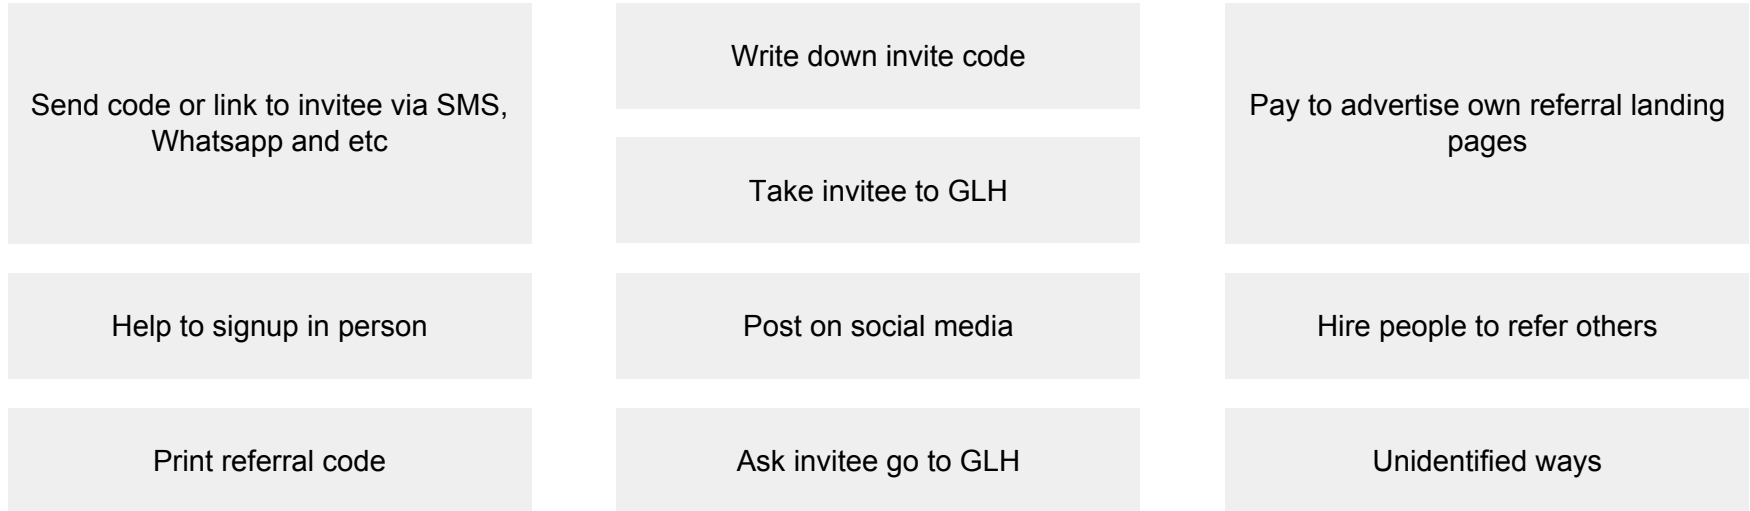

# Inviter

Inviter uses different ways to make sure invite can be successfully applied to invitee

# Invitee

How invitee signs up

Use referral link sign up via referral landing page

Use referral code on paid marketing landing pages

Use referral code on organic landing pages

Use referral code on region created landing pages

Sign up via GLH

Search referral code/link online

Sign up by inviter

# Invitee

How invitee drives

Trip numbers are varies by cities. Usually takes from 2 weeks to 7 weeks to complete trip requirements

San Francisco, \$1,250 for 200 trips

New York, \$800 for 100 trips

Los Angeles, \$600 for 80 trips

No rewards

# Inviter & Invitee

Get rewards

## High level referral flow

Trips requirements varies by cities

## Data - Volume

### Volume - Top 3 Contact Types

- Referral Status Check - 37%
- Retroactive Referral Request - 29%
- Referral Amount Review - 20%

**Takeaway:** Referral Status Check takes up the most volume, but volume could probably be deflected with a simple status tracker for drivers.

% of Total Volume by Contact Type

## Scope

### Volume - Top 3 Contact Types

- Referral Status Check - 37% (P0)
- Retroactive Referral Request - 29% (P1)
- Referral Amount Review - 20% (P0)

## Inviter segments

Referral home needs to be used by  
all segments of drivers

Roughly driver age range:  
25 - 60

Referees

Invite 25+

Whales

Invite 10+ less than 25

Veterans

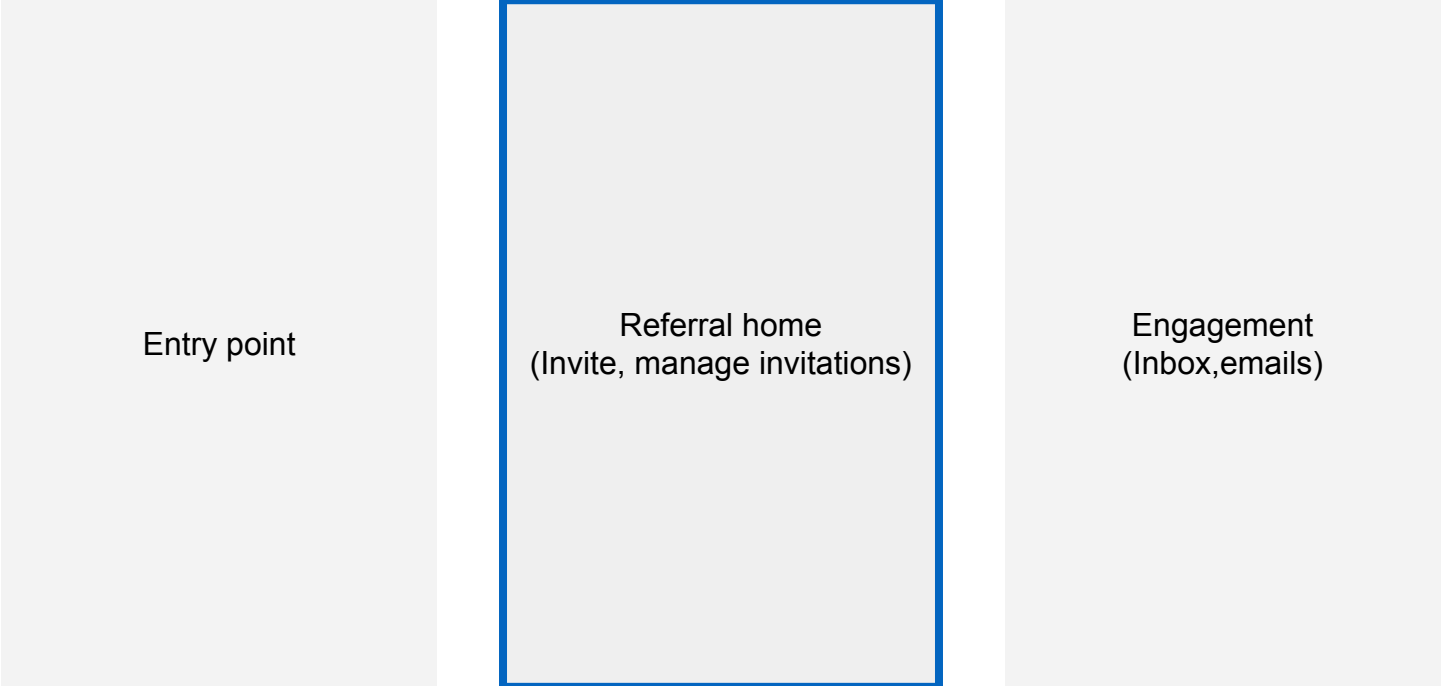

Invite 1 and less than 10

Rookies

Never invite

## High level IA

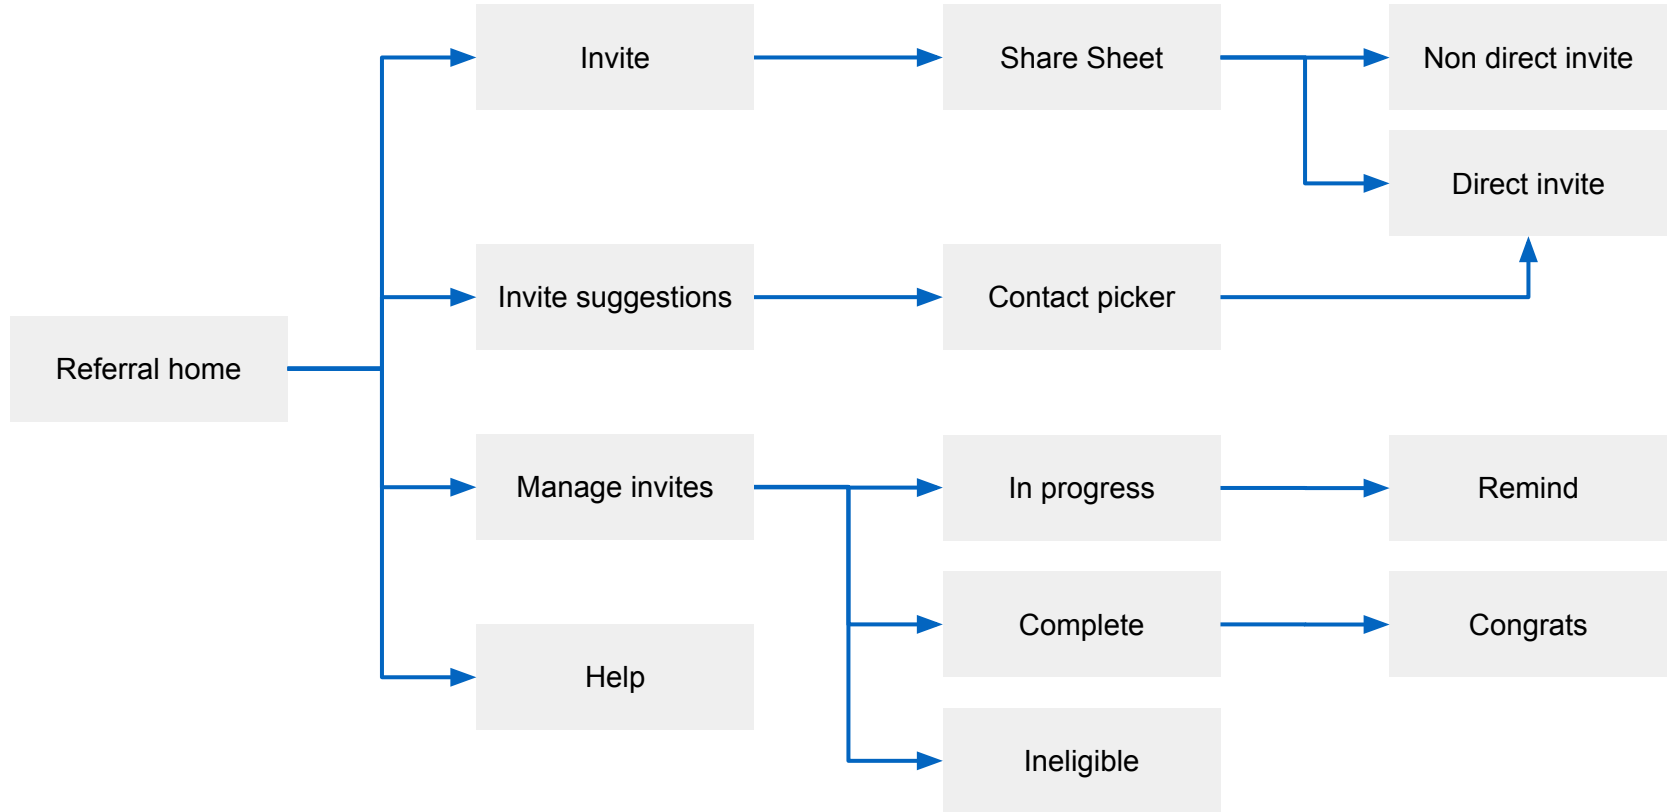

Entry point

Referral home  
(Invite, manage invitations)

Engagement  
(Inbox, emails)

## Referral dashboard IA

## **Main use cases**

### **Invite**

I can send invitation directly to someone.  
I can share my referral code/link on social media.

### **Manage invitation**

I want to know my invitee's progress and when can I get my rewards.

## Referral home IA

Invite

I can refer whenever I want.

Invite suggestion

I do not know who to invite. Uber suggests me who might be interested in driving with Uber.

Manage invitations

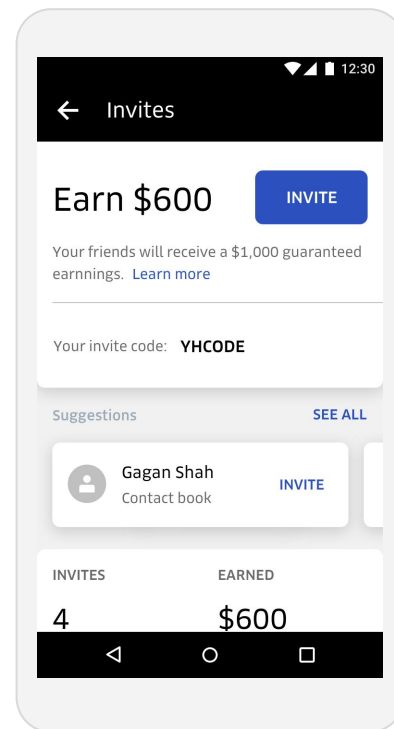

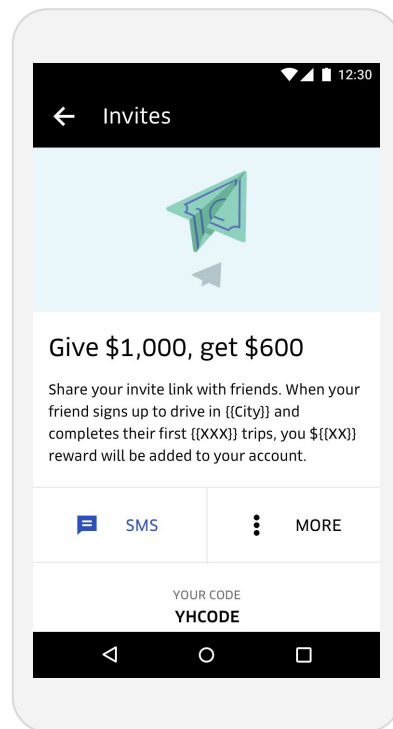

I do not know when can I get my reward. Uber tells me the progress of my invitee progress.

# Explorations

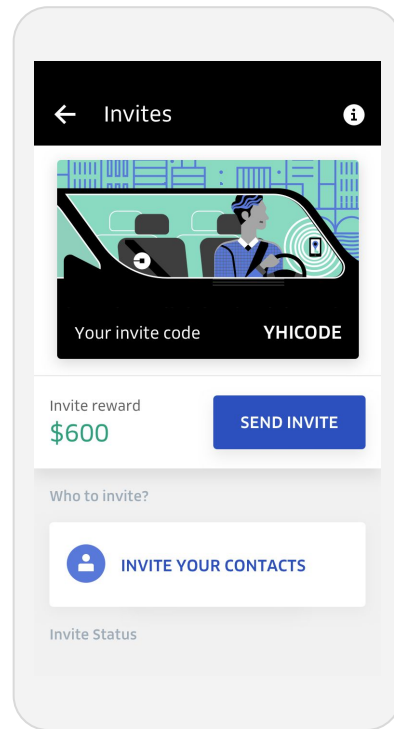

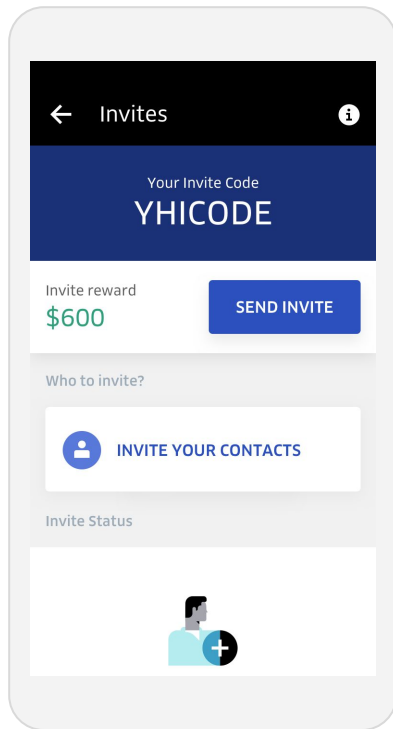

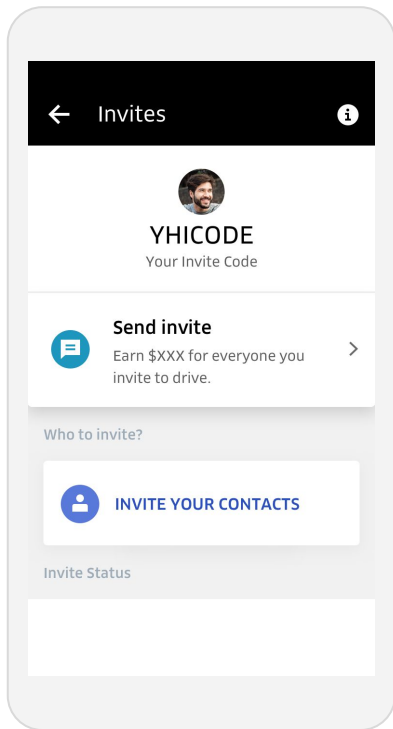

## Explorations 1 - Motivated by earning

## Explorations 1 - Motivated by earning

## Explorations 2 - Focus on functions

## Final

A user can send an invite via primary CTA that triggers native OS share sheet. Tap to copy the referral code on the header is the other way to invite others.

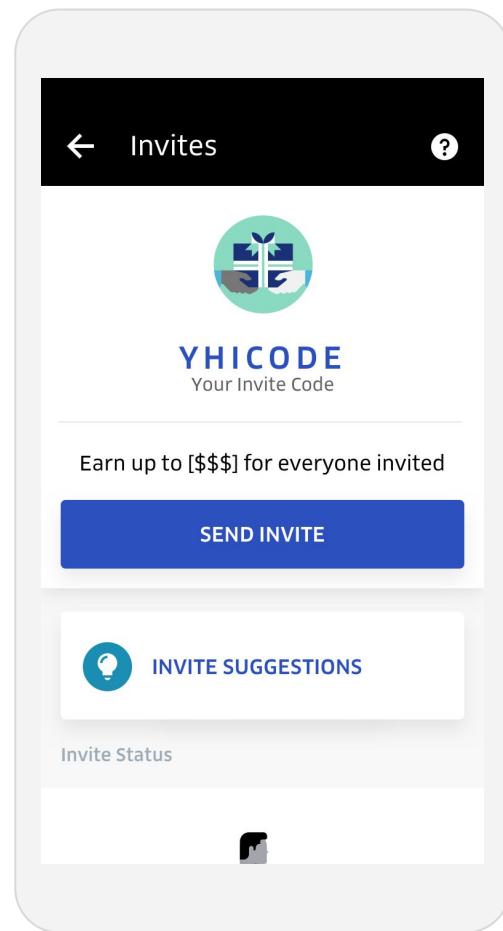

Value prop changes based on different reward states.

*Primary CTA(SEND INVITE) would be tested with contact picker vs native OS share sheet after Carbon launch.*

The screenshot shows a mobile application interface for managing invites. At the top, there is a dark header with a back arrow, the text 'Invites', and a help icon. Below the header is a profile card for 'YHICODE' with a logo and the text 'Your Invite Code'. A blue button labeled 'SEND INVITE' is positioned below the profile card. The main content area is titled 'Contacts' and includes a 'SEE ALL' link. A list of five contact cards is displayed, each with a name, phone number, and an 'INVITE' button. The first contact is 'Gavin Ge' (415 424 9554). The next four contacts are 'Gagan Shah' (415 424 9554). A sixth card contains a person icon and the text 'VIEW ALL CONTACTS'. Below the contact list, the status 'Invitee status: Working towards goal' is shown. A summary section displays '3 PENDING' and '\$1,800 YOU CAN EARN'. At the bottom, there is a card for 'Paul Johnson' with the status 'Waiting for sign up' and a 'SEND REMINDER' button.

**Comms**

## Referral Comms doc

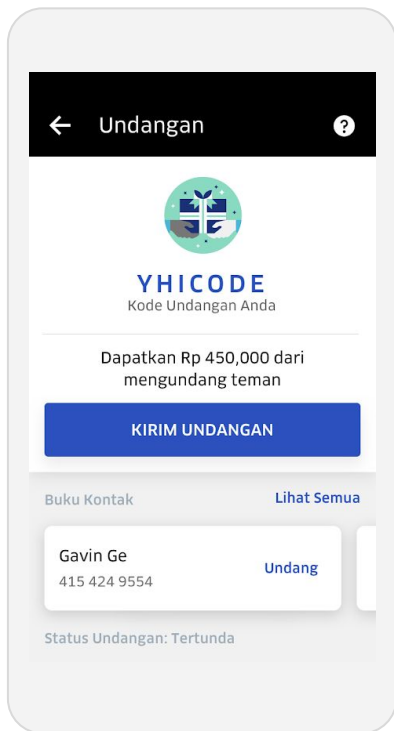

Header image is placeholder

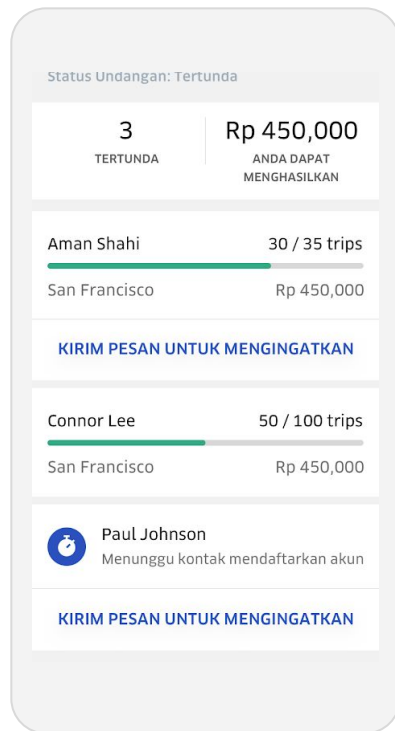

# Localization

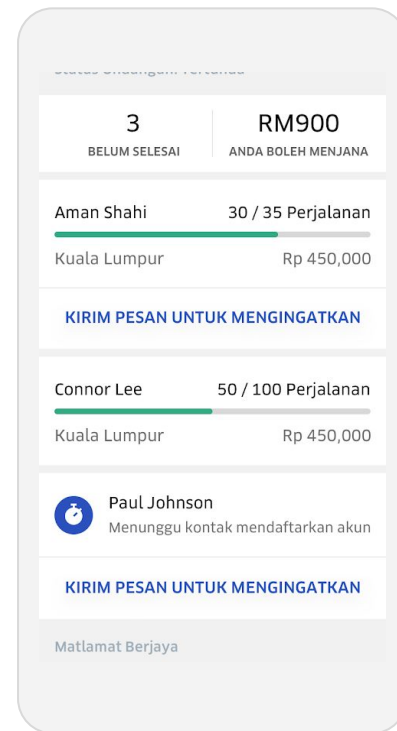

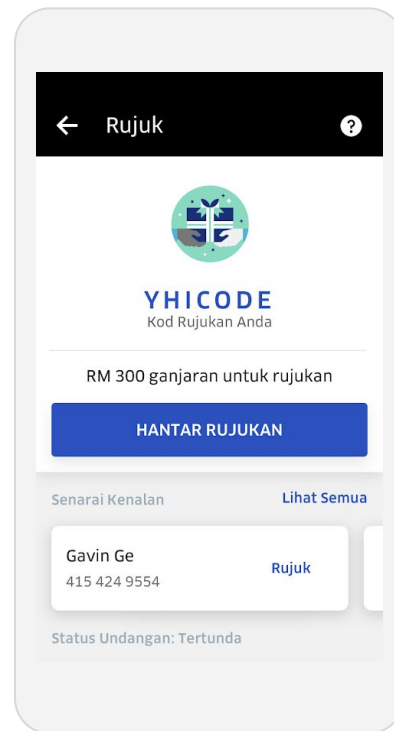

## Localization

Bahasa Indonesia

Bahasa Malaysia

**P1**

## **Problem**

### **Retroactive Referral Request**

Users contact support to add referral after invite signs up.

Reasons:

- Invitee forgets to enter code
- Invitee enters wrong code
- Invitee does not know where to enter invite code
- Fraud

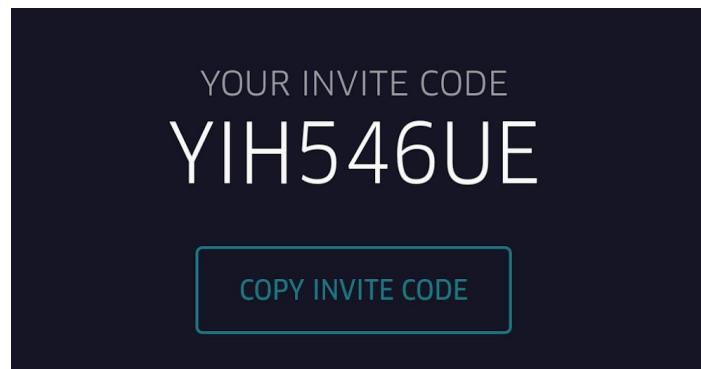

## Invite code

### Inviter:

Hard to remember and not relevant with driver (Code randomly generated from backend). To avoid confusion, “0””o” are excluded.

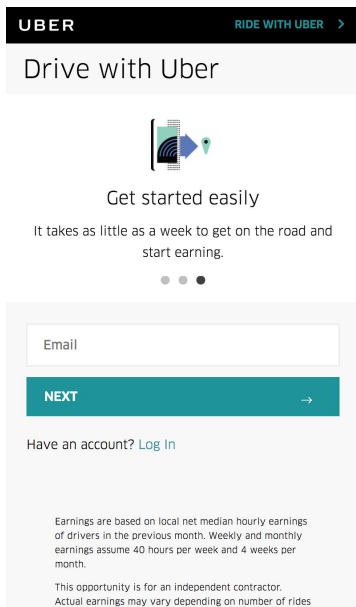

### Invitee:

High possible to entered the wrong invite code especially non English speaking countries.

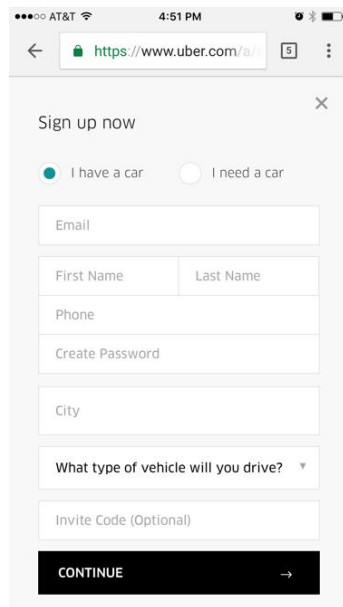

Referral code example

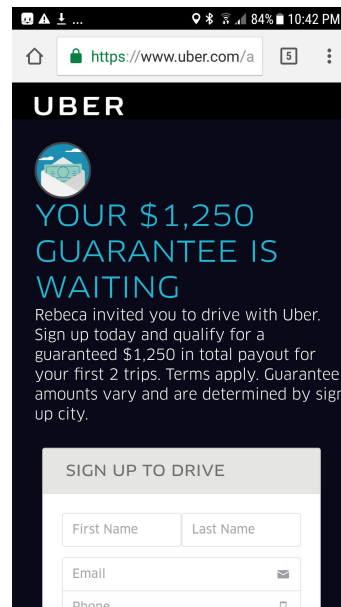

# Sign up landing pages

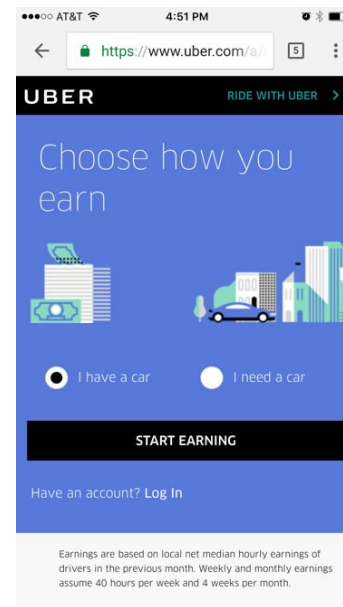

Paid marketing landing pages

Organic landing pages

Referral landing page

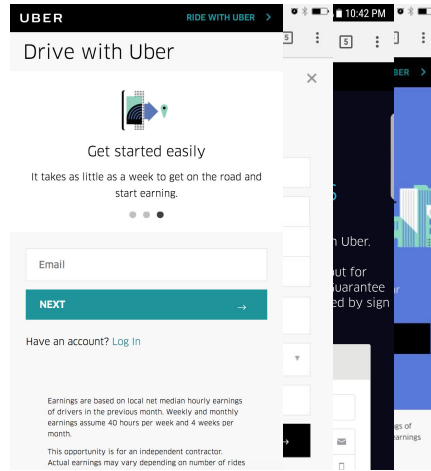

Local marketing landing pages

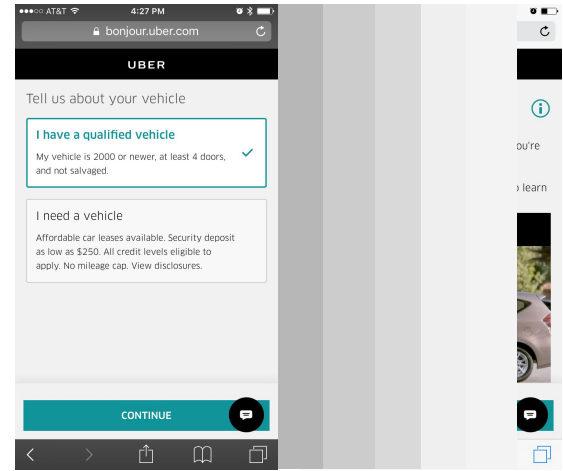

# Onboarding

It's hard to tell where and when to input referral code during the signup process with multiple different landing pages as different channels maintained by different stakeholders.

Forgot to enter invite code by the massive requirements during the process.

Sign up

Onboarding

## Potential solutions

### Optimizing invite code

Make it more relevant to driver.

- Phone number
- Name + Number
- Customizable code
- QR code
- etc

This would improve the experience on inviter side, but invitee still need to remember the code and enter on the landing pages which is still a fraction. QR code decrease the input fraction, but required invitee has the app already which is applicable for all the use cases.

### Optimizing landing pages

Make referral code input more noticeable

It might increase fraud as people who do not have invite code would search the code online. This is not supposed to be the use case for referral program.

# Motivation

## **Inviter's motivation is higher than invitee**

All the insights from research and behaviors demonstrate inviter would like to do a bit extra work to make sure invite is successfully applied to invitee.

# Who inviter invite?

**Relatives**

**Friends**

**Coworkers**

**Strangers/Unfamiliar persons\***

\*From insights, only power inviters actively refer strangers who they do not know/unfamiliar before.

# What information inviter knows

**Invitee's phone number**

**Invitee's name**

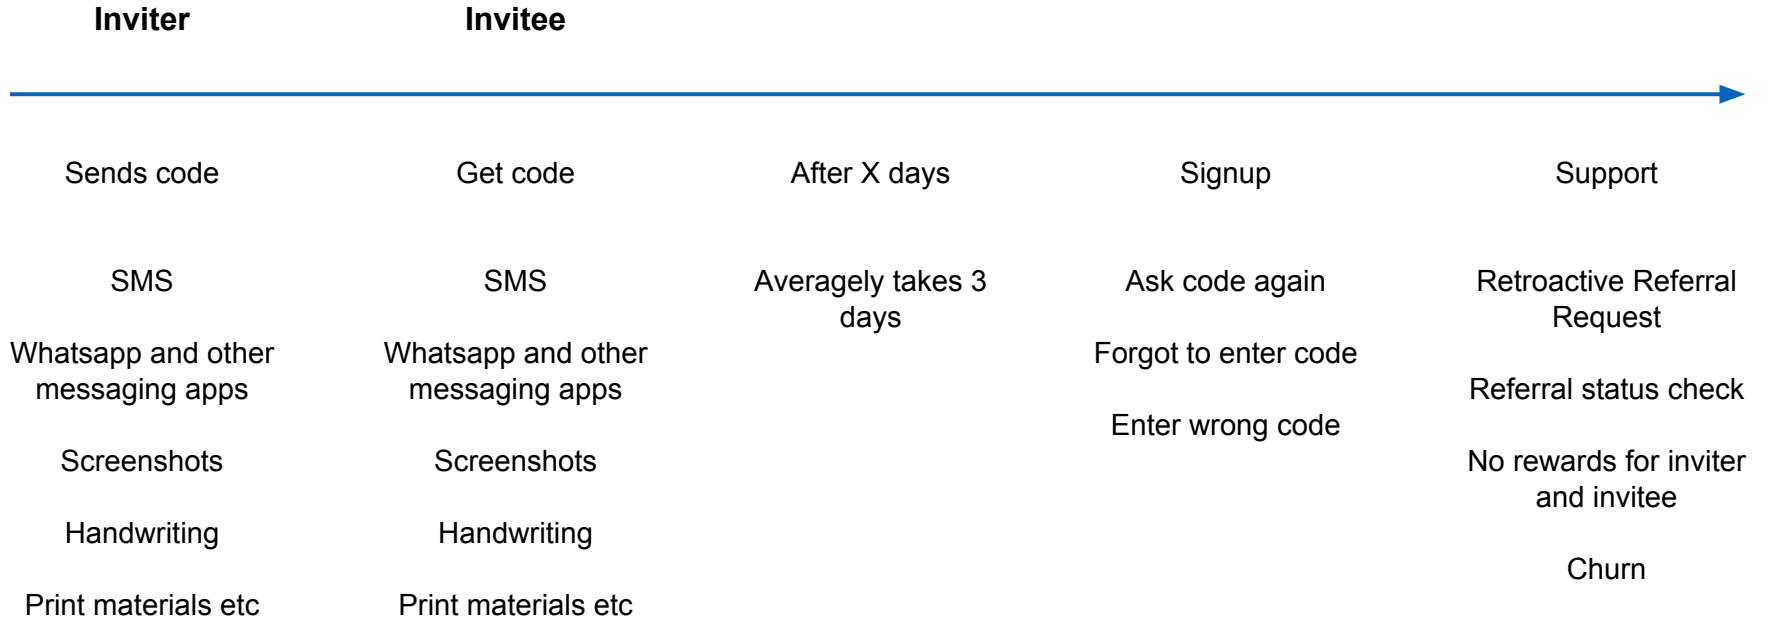

**Invitee's gender**

**Invitee's city**

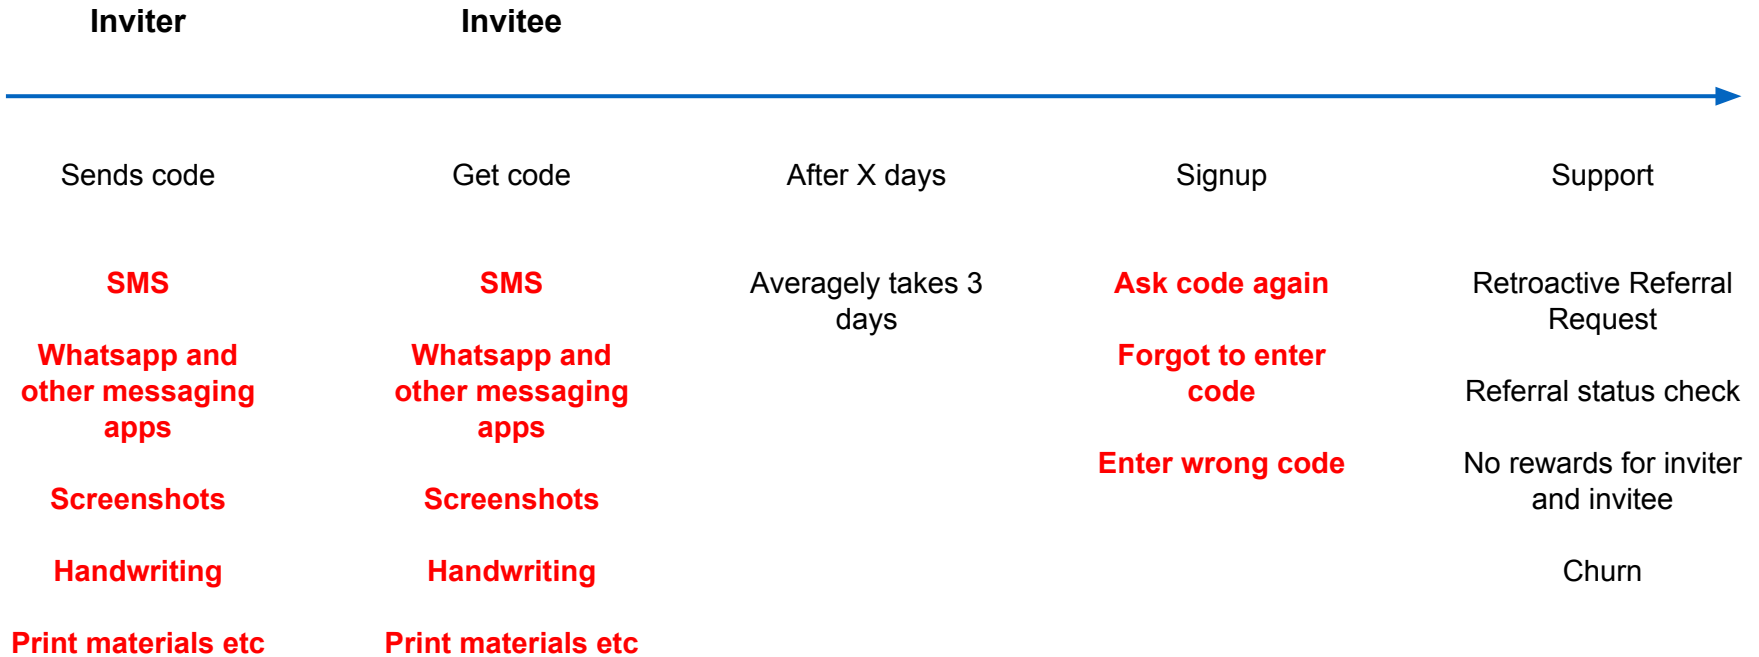

**Invitee's estimate age**

**If invitee has a car or not**

## Invitee uses code flow

# Optimized code could optimize the experience, but using code is actually a fraction

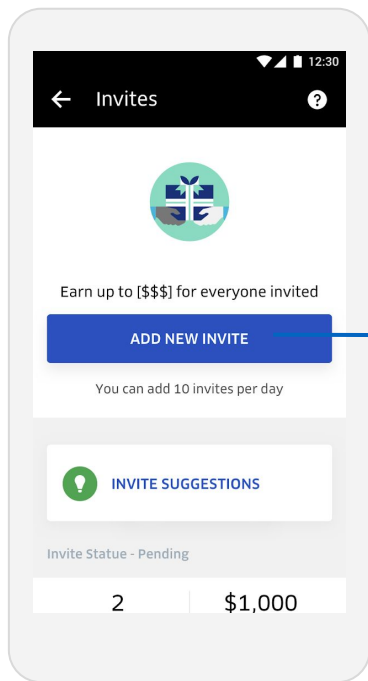

# **Out of inviter's control**

**Invitee forgets to enter code**

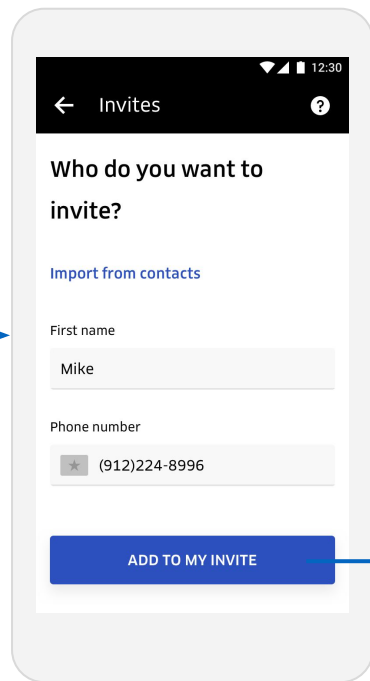

**Invitee enters wrong code**

**Removing the fraction  
of using code**

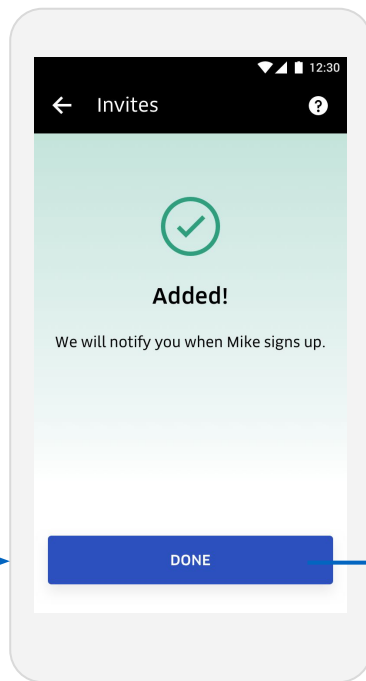

## Invites flow - no need to send message

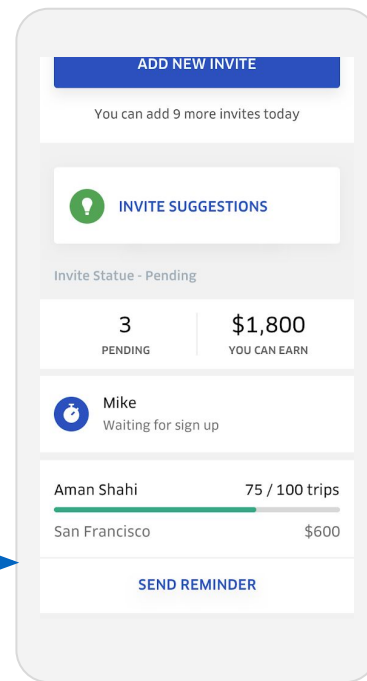

Referral home

Add invite

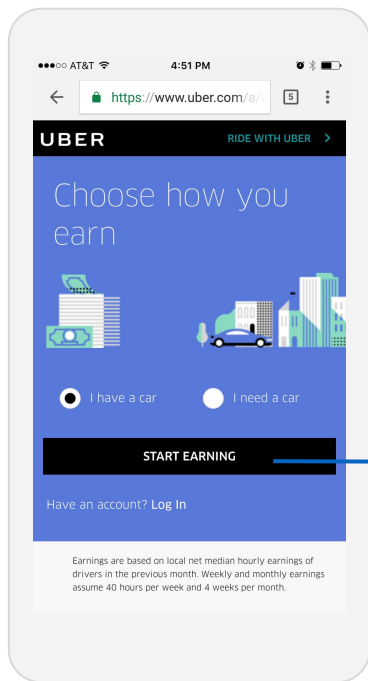

Added invite

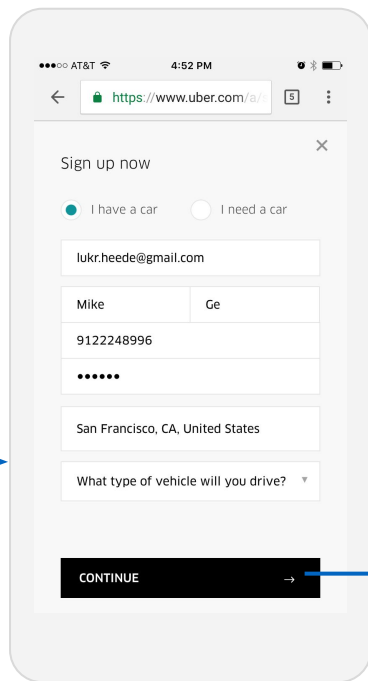

Referral home

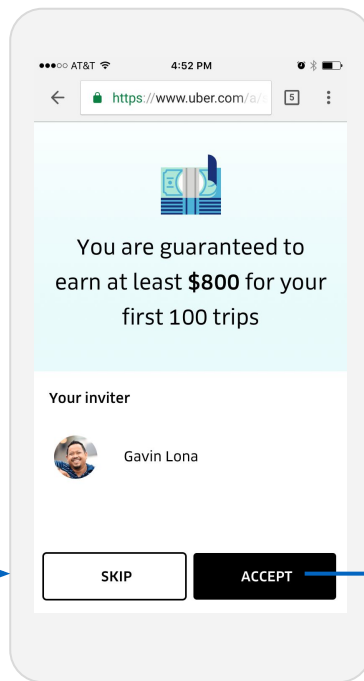

## Invitee flow- no need to enter code

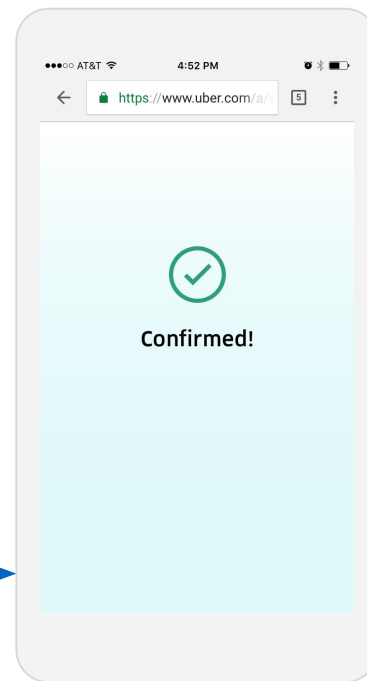

Sign up landing page

Create account

Invite info

confirm

## Existing and new flow comparison

The new flow still takes the same steps as existing invite flow. However, it extremely reduced the fraction on the invitee side.

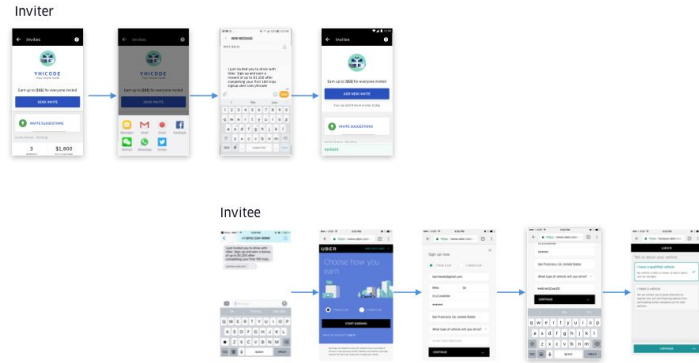

### Improvements:

No need to remember invite code

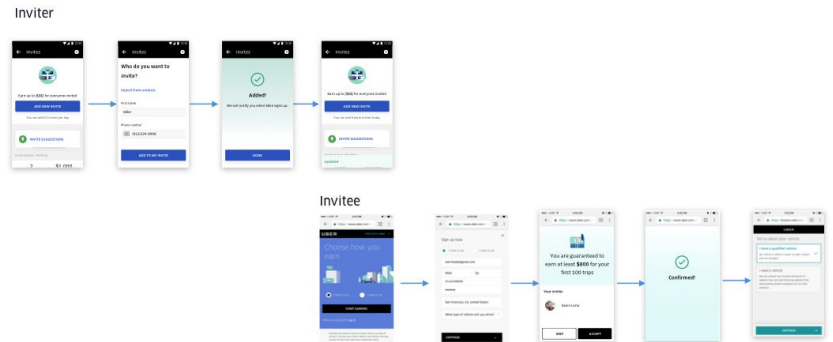

No need to look for where to add invite code

No worry about enter wrong code

## Existing

## New

## Minimized fraction

### Inviter

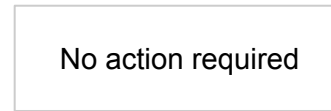

### Inviter

### Invitee

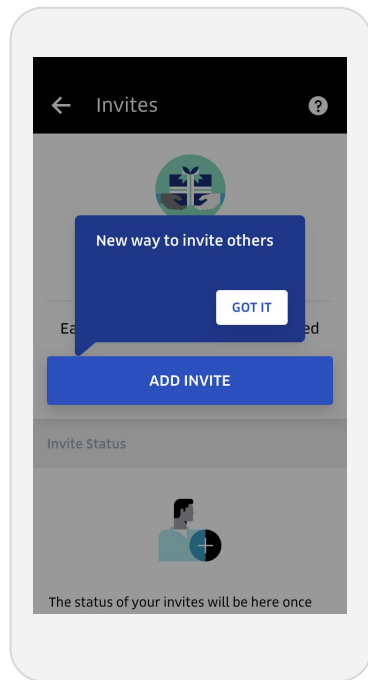

### Invitee

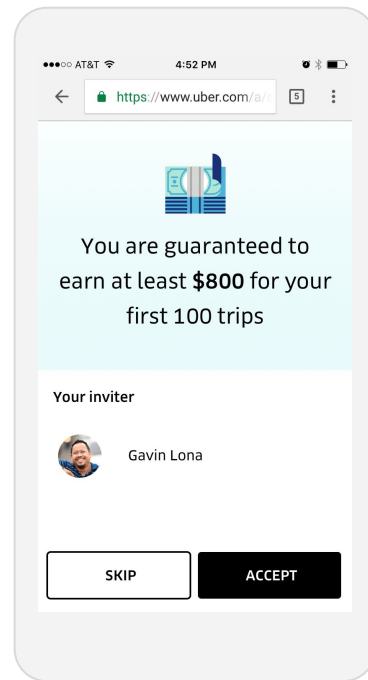

No worry about failed invite due to invitee's fault

No need to remember invite code  
No need to look for where to add invite code  
No worry about enter wrong code

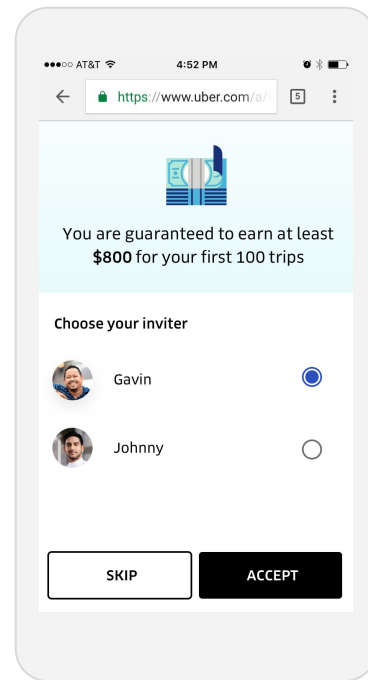

## Others

FTUX

## Manage invitation

The image shows a mobile app interface for managing invitations. It is divided into two main sections: 'Pending' and 'Goals completed'.

**Pending Section:**

- Header: Invite Status - Pending
- Summary: 3 PENDING, \$1,800 YOU CAN EARN
- User: Paul Johnson, Waiting for sign up
- Action: SEND REMINDER
- Item 1: Aman Shahi, 75 / 100 trips, San Francisco, \$600
- Action: SEND REMINDER
- Item 2: Connor Lee, 75 / 100 trips, San Francisco, \$600

**Goals completed Section:**

- Header: Invite Status - Goals completed
- Summary: 2 GOALS COMPLETED, \$1,200 YOU EARNED
- Item 1: Aman Shahi hit the goal, \$600 will be added to your next pay statement
- Action: CONGRATULATE
- Item 2: Aman Shahi hit the goal
- Action: CONGRATULATE

Annotations on the left side of the image:

- size: headline, color: textPrimary, weight: news (points to the number 3)
- size: meta, color: textSecondary, weight: Medium (points to the user name Paul Johnson)
- lineColor: #E5E5E4 (points to the horizontal line in the progress bar)

Dimensions on the right side of the image:

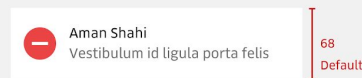

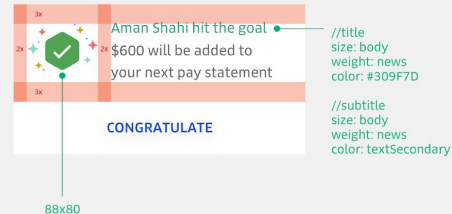

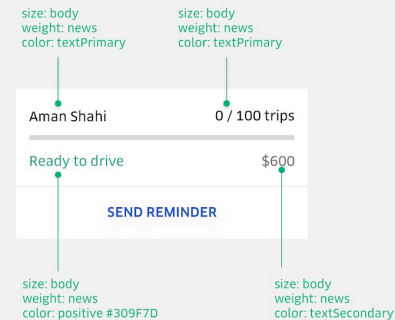

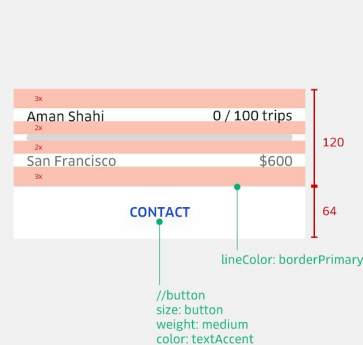

- 80 (height of the Pending summary bar)
- 56 (height of the Goals completed summary bar)

Footer text: Get up to X for every friend who drives with Uber. Trip requirements vary and [terms](#) apply.

## Webview CTA

[lists/components/singleLine/left/emphasisCreate](#)

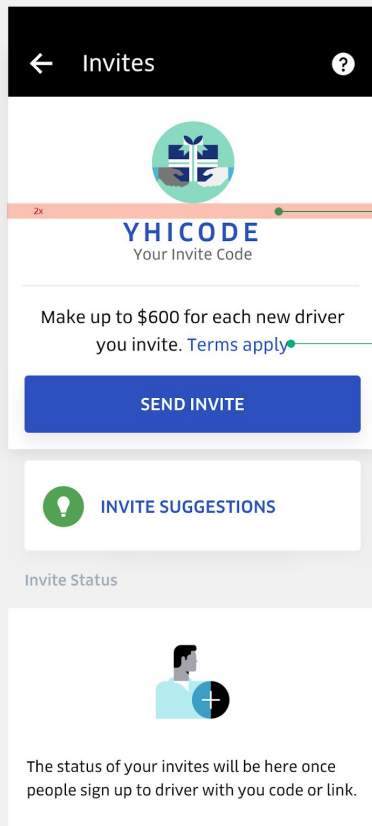

# Legal

Final header design with legal link.

Changes:

1. Spacing as noted on the image from 3x to 2x.
2. Adding “terms apply” above the CTA
3. Delete bottom legal paragraph.

“Terms apply” links to partner web dashboard and **need to anchor on the bottom of the legal section.**

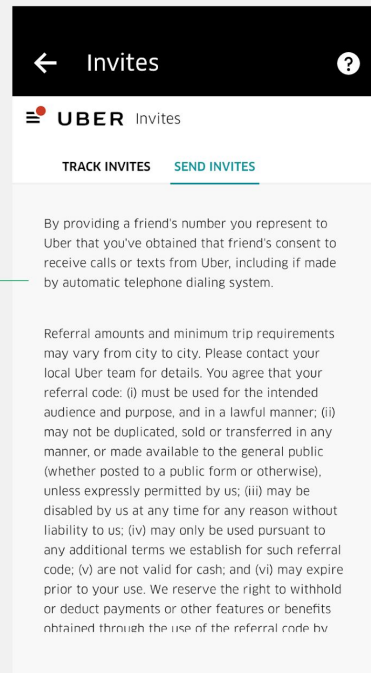

Spacing from 3x to 2x

//paragraph  
Size: 16pt/sp  
Line-height: 27pt/sp

Link to  
<https://partners.uber.com/p3/referrals/dashboard/send>

**NEED TO ANCHOR ON THE  
BOTTOM OF THE LEGAL SECTION**

Delete bottom legal terms where designed before.

All blue CTA should use  
accentPrimary  
navy6 | #6A89E2

The screenshot displays a dark-themed mobile app interface. At the top, there is a circular logo with a gift icon. Below it, the text 'MAXWELLE' is written in a blue font, with 'Your Invite Code' underneath. A promotional message states 'Get \$9,999 when you refer a friend to drive on Uber'. A prominent blue button labeled 'SEND INVITES' is centered below the message. Underneath the button is a 'SELECT FROM CONTACTS' option, accompanied by a lightbulb icon. The interface then shows the user's 'Invite Status - Pending'. Two rows of progress bars are visible, each for 'Aman Shahi' with a goal of 100 trips. The first row shows 50 trips completed, and the second row shows 70 trips completed. Below each progress bar, the location 'San Francisco' and the amount '\$600' are listed. The progress bars are filled with a blue color, and a green segment is visible at the end of each bar.
